# JEWELLERY CARE

All Luxe Tones styles are made from various metals and mixed metals alloys.

Store your jewellery individually in the original packaging or a soft pouch to avoid damage. Polish your jewellery frequently with a lint free cloth to maintain its original condition.

Please don't forget to remove your Luxe Tones jewellery before going to bed, washing your hands, swimming or using products such as perfume, hairspray, soap, or lotion. Such products may harm the metal and cause discolouration
